Izzah Syllabus (description):

- Nooraniyyah & Qur'an Classes:

- Stage 1: Nooraniyyah Classes (for adults and children)

This foundational program develops the essential skills for proper Qur'an recitation, beginning with letter recognition and/or pronunciation (according to the student's level) and progressing to the reading of words and verses while introducing the basics of Tajweed and Tilawah. For children's classes, engaging and interactive activities are incorporated to reinforce learning and keep students focused and motivated.

- Stage 2: Qur'an Talqeen Classes

In this course, students apply the Tajweed and Tilawah skills acquired in the Nooraniyyah program through the recitation of selected Surahs. Emphasis is placed on correct letter articulation (makharij), letter characteristics (sifaat), and the accurate application of Tajweed rules. Through guided analysis of Quranic verses, teacher modeling, in-class practice, and home review, students strengthen their understanding and develop fluency and confidence in proper Qur'an recitation.

- Stage 3: Tasmee' Classes

At this stage, students are able to recite independently while applying Tajweed rules with confidence. They memorize selected Surahs and recite to the teacher for correction and refinement. Many students have completed the memorization of the Qur'an, and some have been granted Ijaza with Sanad.
